

Prescribing Provider Survey for the Texas Prescription Monitoring Program Due May 11, 2026

Last updated on 5/29/2026

This article has been updated. To view the updated information, visit [Prescribing Provider Survey for the Texas PDMP Extended to June 10, 2026](#).

The Texas Health and Human Services Commission (HHSC) has created a [provider survey](#) that will help in gathering data to report on Texas Prescription Drug Monitoring Program (PDMP) usage by Texas Medicaid-enrolled prescribing providers. The Centers for Medicare & Medicaid Services (CMS) requires states to report data about prescribing providers' use of the Texas PDMP before allowing the providers to prescribe controlled substances.

The survey must be completed by **May 11, 2026**.

This year's survey covers prescription data from federal fiscal year 2025 (October 1, 2024, to September 30, 2025). All prescribing providers are highly encouraged to complete the survey. HHSC will collect and analyze the responses and report the findings to CMS later this year.
